TOP SECRET

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

CARPATHIAN MD

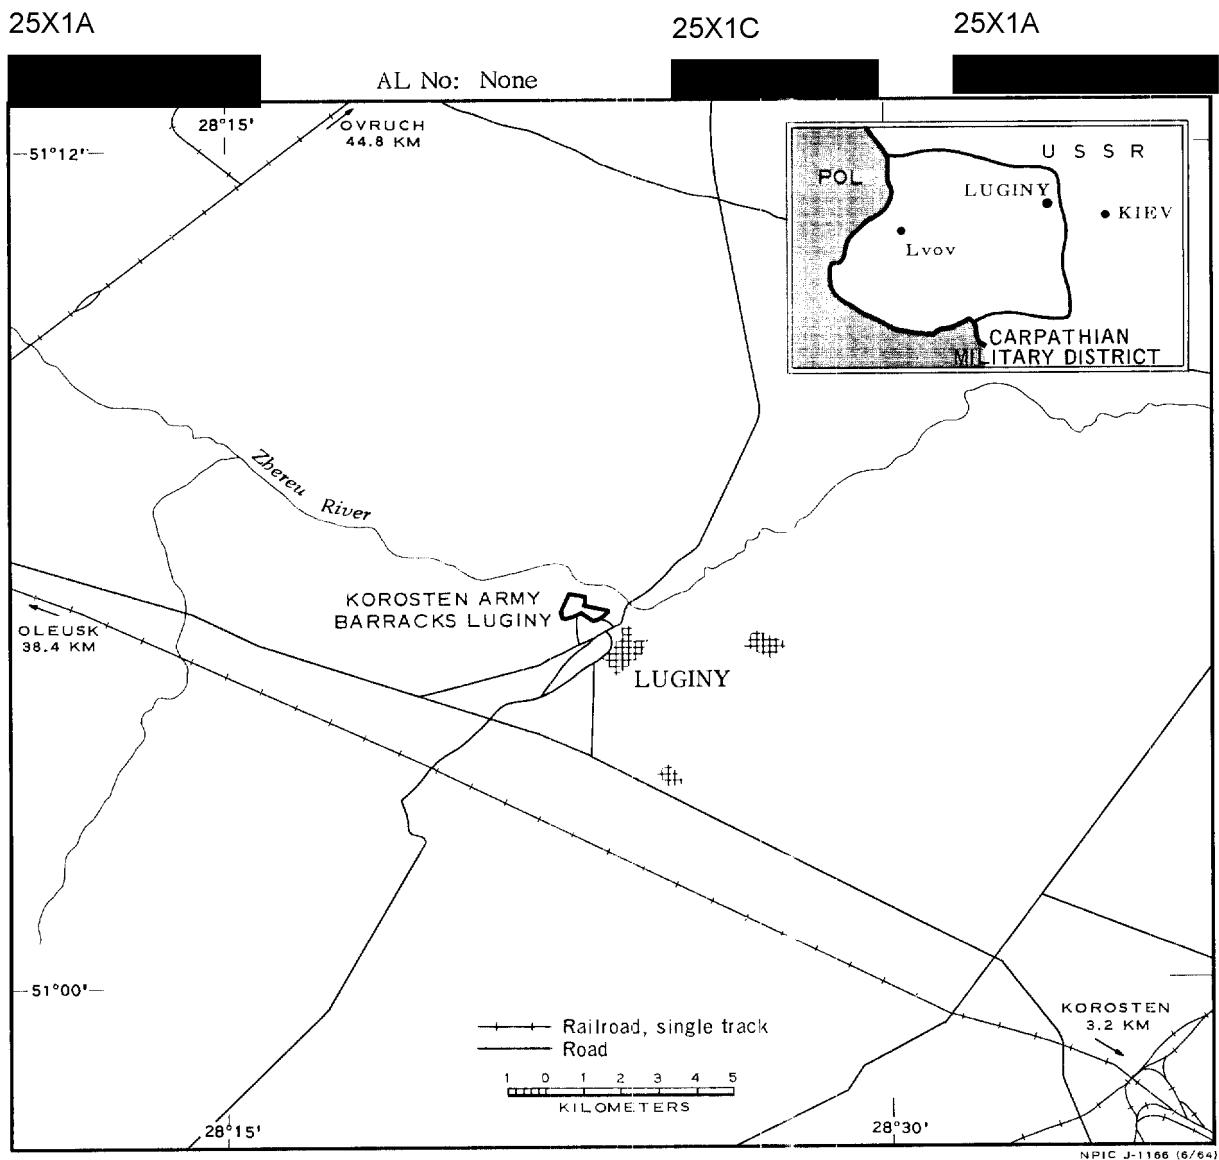

FIGURE 1. LOCATION OF KOROSTEN ARMY BARRACKS LUGINY.

NPIC/R-400/64

SUMMARY

This installation is located 1.6 kilometers (km) northwest of the village of Luginy, about halfway between Belokorovichi and Korosten (Figure 1). The installation covers approximately 230 acres, is road served, and is 4.8 km north of the Korosten-Olevsk railroad (Figures 2 and 3).

The installation contains 58 buildings: three multistory administrative buildings; one multistory administrative building/barracks; three barracks, including two multistory; 13

general storage buildings; eight vehicle maintenance/storage buildings, including one at a probable tank range; and 30 support buildings.

The installation also includes a vehicle park, a possible POL area, a probable range for tank-mounted automatic weapons, and two small arms ranges.

Summer photo coverage indicates that this installation may be in support of the tank training activity between Korosten and Ovruch.

DESCRIPTION OF INSTALLATION

Railroad Service

The Korosten-Olevsk railroad passes within 4.8 km of the installation.

Road Service

A road from this installation connects with the all-weather road between Korosten and Belokorovichi.

Administrative and Troop Housing Area

Area D (Figure 3) contains three multistory administrative buildings, one multistory administrative building/barracks, two multistory barracks, one barracks, and 16 support buildings.

General Storage Area

Area E contains 13 storage and nine support buildings including a guard tower.

Also in this area is a 450- by 160-foot probable range for tank-mounted automatic

weapons. It is bordered on three sides by embankments and has a 110- by 40-foot possible drive-in-type building at one end.

POL Storage Area

Area G, a possible area for drum storage, contains two support buildings.

Equipment Storage/Maintenance Area

Area J has seven vehicle maintenance/storage buildings, three support buildings, and a 550- by 450-foot vehicle park. Four of the vehicle maintenance/storage buildings measure 180 by 45 feet, one is 90 by 70 feet, and two irregular-shaped buildings measure 190 by 50-80 feet and 230 by 40-70 feet.

Small Arms Firing Ranges

Areas L1 and L2 are small arms firing ranges measuring 350 by 40 feet and 750 by 90 feet respectively.
